G.K.U.C. international (Pvt) Ltd. is a premium manufacturer and supplier of a wide portfolio of **Bituminous Products**. Since our inception in 2009, we have consistently been one of the fastest growing players in this industry primarily due to our commitment to quality and sound management principles.

We use industry-leading manufacturing infrastructure with the most technologically-advanced machinery to produce highest quality and best performing products.

Being a Ministry of Industry & Commerce and Industrial Development Board compliant organization, we focus single-mindedly on building value for our esteemed customers through our unique client management system. We procure best quality ingredients for our products from the most reputed government refineries and private suppliers.

We, at G. K. U. C. International (Pvt) Ltd, understand the needs of the rapidly growing infrastructure sector and the economy, and are committed to meet the expectations of our clients with our high-capacity production facilities and our commitment to providing the highest quality products and services.

VISION

To become the leader in the market of bitumen products supply in Sri Lanka.

MISSION

To continually improve the standards of products and services by maintaining a work environment that encourages exemplary service to our customers while adding value to stakeholders through quality and professionalism.

Our People

Our people are our greatest asset/strength. Thus, we strive to create a work environment where their true potential is reached. GKUC is home to a vast number of employees with

extensive experience in the fields of engineering and construction/different fields related to the construction industry. We actively seek and share diverse viewpoints to achieve excellence and we are committed to assuring opportunities for all employees to further themselves by continual learning.

Our Commitment to Quality

We, G. K. U. C. International (Pvt) Ltd, are dedicated to quality and safety, and take personal pride in all the products and services we provide. Being an ISO 9001: 2015 certified organization, we comply with all applicable statutory and regulatory requirements, and our stringent quality standards (ASTM standards) continuously drive us to improve. Our focus on exceeding the expectations of our customers has been the key to our continued success.

Environment Responsibility and Commitment to Sustainability

We are committed to complying with environmental laws and regulations and building awareness of our internal and external stakeholders in preserving the environment.

We focus on improving the quality and efficiency of our operations with minimum environmental impact. We utilize business processes that enable minimum waste generation, enhanced recovery and recycling of material and develop Eco-friendly wastage disposal.

Use of Advanced Technology

GKUC uses the most technologically advanced production systems and equipment in the production process. Rigorous testing has been the secret to the consistent quality of our products. We own a modern laboratory with the latest facilities for testing and Research & Development which has immensely contributed to the quality and efficiency of our products. All our production methods and processes comply with ASTM standards.

We do not compromise on the quality of our products and services. Therefore we are selective in choosing our suppliers. We collaborate only with top-notch suppliers who enhance the value of our products and services. We view our suppliers as extensions of our company and an essential part of our commitment to quality. Our suppliers comply with the sound business practices we embrace, and all applicable laws and regulations.
